

Swing Out Sister

Spring Summer 2024

Introducing 'Soul Surf'

Our SS24 collection is marine inspired. It embraces the feel of the sea breeze with an emphasis on ocean welfare. Our signature wave patterns and colour palette of sunshine, dazzling blue, emerald green, foam white and navy connect fresh & vibrant colours with the natural landscape of our Sea.

Sustainability remains the key to both our fabric and garment creation with more sustainable manufacturing processes and increased use of recycled fabrics and organic cotton. We are proud that this collection is our most responsible yet.

Everything is designed at our Sussex HQ and we want our fashion edits to take our customer from the golf course to the bar in just a few small steps. Our boldest colours and prints yet, give rise to pieces with intelligent detail that provide limitless possibilities on and off the golf course. Lightweight, breathable fabrics and engineered stretch are paired with relaxed & tailored shapes and sit with our fresh palette of colour and pattern. In amongst this are our core edit of classics which will go on working for you all summer long and many summers to come AND our E.L.I.T.E range designed for those who enjoy multiple sports.
